All measurements are in centimeters.

Bust:

Thread tape measure under arms, across shoulder blades at back and around fullest part of bust at front. Relax arms at sides while keeping tape parallel with floor. This is your bust measurement.

Waist:

Bend to one side to find natural indentation in torso. This is your natural waist. Run tape around natural waistline, keeping tape parallel with floor and one finger between body and tape for a more comfortable fit.

Hip:

Stand on a level surface with feet together. Measure around fullest part of hips and bottom (approximately 18 cm to 23 cm below waistline), keeping tape parallel with floor.
